PROPOSALS BY LITTLE & BROWN,

PROPOSALS BY LITTLE & BROWN,
Law Bookssillers, Boston, for publishing by subscription a new series of
Law AND EQUITY REPORTS.

The want of some system by which the decisions and judicial opinions of the several Courts of Law and Equity in England can be more promptly and cheaply furnished to the legal profession in this country, has long been seriously fell and acknowledged. To meet a similar want in Eagland, the "Law Journal Report." and "The Jurist," which, together, report decisions in on, the Courts in Law and Equity, within a few weeks after their delivery, were commenced a number of years since, and have met with the universal approbation of the legal profession.

The subscribers propose to resublish these reports in full, as fast as they appear in England and can be received here. They will contain reports of cases decided in the fluxes of Lords, the Privy Council, the several Courts of Equity, the Court of Exchequer and Exchequer Chamber, the Ecclesiastical and Admirally Courts, the Court of Sankruptcy, including all the Election Cases, the Crown Cases Reserved, and the Railway and Canal Cases.

These reports will be published in monthly numbers or parts, commencing with the decisions of Michielmas (November) Term, 1959, and will be carefully edited by a member of the Bar, with notes and references to analgon. American decisions.

Each number will consist of over THREE HUNDRED pages closely printed octavo, on the best paper, and in a clear, fair type, and will contain a table of cases, and a full table of contents, thus forming a complete volume by itself, as well as a part of an entire series. Every alternate or second number will be paged consecutively from the num-

clear, fair type, and will contain a table of cases, and a full table of contents, thus forming a complete volume by itself, as well as part of an entire series. Every alternate or second number will be paged consecutively from the number immediately preceding, and will contain a table of cases, and of contents to both, and thus form, every two months, a complete volume, ready for binding, of ser six hundred pages.

It is designed to make this a FERMARENT FUBLICATION, and thus establish a new series of ENGLISH Law AND EQUITY REPORTS, which shall in all respects, be far in advance of any other reprint of English Reports in this country, and which shall furnish to the American lawyer the decisions of Westminster Hall, nearly the years before they could otherwise be obtained, and long before the publication of the contemporaneous decisions of most of our own imburals.

cand's otherwise be obtained, and long before the publication of the contemporaneous decisions of most of our own
inducata.

The profession may be assured that this series will be the
most complete of any reports now published. A careful
examination of the Jurist and Law Journal, for a series of
years, discloses the fact that many important cases are bare
reported which are not found in the contemporaneous reports of Messon's. Wells, lady, Manning, Granger & Scott,
Adolphus and Ellis, and other reporters; and the Law
Journal slone, during the first seven years of its existence,
published over 1,000 cases not then elsewhere reported.—
This publication will isolate all the future decisions of the
Law and Equity Courts heroeffer contained in the series of the
